選用前

選用3星期後

已12歲的松鼠約瑟混種犬Chopper，牠不僅患有牙肉發炎、牙齦炎、更有大量牙石積聚。因年紀過大，醫生並不建議作麻醉洗牙但推薦使用PetzLife治療。

PetzLife 的核心成份：柚籽精華

研究報告指出西柚籽內proanthocyanidin前花青多酚成份為高度生物活性，比其他植物具更有效顯著抗養化及抗游離基功能；純天然成份不含有害化學物

Chopper使用PetzLife三星期後，牠的牙肉出血問題完全清除，牙石自動軟化脫落，牙齦炎更完全根治，口氣清新，擁有健康牙齒開心每一天！

This is Chopper, a 12 year old female Pomeranian/Yorkie mix. The plaque was really bad and her breath was terrible, could not get anything off of her teeth and she would pull away because of the pain caused by the infections. Because of her age, vet did not want to put Chopper through the ordeal of anesthesia until she had an opportunity to give PetzLife a chance. After three weeks, It was amazed at how easy plaque came off and even her gums are looking 100% better. The infection that was going on has now lessened and Chopper is a much happier and healthier dog is amazed without anesthesia. This is really a great product. A study showed that grape seed extract (GSE, proanthocyanidin) is highly bioavailable and provides significantly greater protection against free radicals and from peroxidation.

*臨床診斷證實適合各種貓犬使用！*Clinically proven it works for both dogs and cats ultimately.

為達最佳效果，建議每天早晚使用及請於使用前後30分鐘內勿飲水進食。
